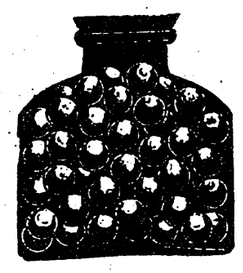
LIVER COMPLAINTS

Among civilised mankind there is no complaint so prevalent as the above, late medical statistics showing that fully one-half of nearly all the communities are to a greater or less degree afflicted with it. Under these circumstances, it is highly important that the wonderful curative powers of

BRISTOL'S SUGAR-COATED PILLS.

in Liver Complaint, should be made to the public. They are in this disease, as nearly as can be said of any medical preparation,

A PERFECT SPECIFIC!



PURELY VEGETABLE.

A remedy that is precisely as represented, and one on which the sick and ailing can always depend. Their effect is to tone and strengthen the Liver, to stimulate it in a continuous, natural, and healthy action; to prevent torpidity, to keep the bile from congulating or becaming thick and sticky, which is always the condition in certain stages of Liver Complaint, being the preliminary to the formation of gall-stones—and the most excruciating pain in their passage through the duct into the bowels.

BRISTOL'S SUGAR-COATED PILLS.

Do not depend upon any mineral or dangerous substance for their acting upon the liver, They are purely vegetable. and entail no evil consequences upon the patient; they do not dry up the natural humidity of the bowels, thereby causing a continual necessity for further purgation, and the ultimate weakening of the entire excretory organs.

PODOPHYLLIN AND LEPTANDRIN.

The active principles of Bristol's Pills are acknowledged by all enlightened physicians to be the surest and safest remedy for every form of hepatic or biliary derangement. No other Pill, of which we have any knowledge, contain these invaluable resinoids. Prepared in our own laboratory, under our personal supervision, they insure the unvarying uniformity of operatio or which Bristol's Pills have become so justly celebrated. But the powerful anti-bilious properties of these Pills are not their only virtue, they are besides a splendid tonic, a thorough yet safe cathartic, a sure cure for indigestion and dyspepsia; safe for the weakest, yet strong enough for the most robust. In short, they are an unfailing

SOURCE OF GOOD HEALTH.

To those who use them, without any of the griping, ripening, or weakening effects produced by the operation of other Pill.

In every case where there is reason to suspect that the blood is impure, or that there is any taint of Scrofula in the system, BRISTOL'S SARSAPARILLA should be used in conjunction with the Pills, the two medicines being preparde to act in harmony and when used together they ensure a speedy and complete recovery.

For Sale at all the principal Drug Stores.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no other obligation than the payment of the stipulated Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards:—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes,
Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal boundary.

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 118, PIEDAD; or at any of the Country Agents.

ANTIGUA FOTOGRAFIA.

BATE Y CA.,

MONTEVIDEO.

This popular Establishment continues to maintain its well-earned reputation of being the first Photographic and Fine Art Gallery in the River Plate. Its Proprietor, during a recent visit to Europe and North America, has spared no effort or expense to secure the best artistic skill, and the latest and most approved inventions applicable to the art.

The new building, in Calle 33, is modelled on the celebrated Rentlenger Studio in Paris, and combines all the modern improvements and latest inventions of the day.

This new style of picture, introduced by Mr. S. L. Reignolds, of London, makes the finest and most effective style of Portrait known at the present day. Their purity of colouring and delicacy of tone is such, that some of the first English artists have been unable to determine whether they are Photographs, or simply and purely Water Color Drawings. The process is peculiarly applicable to the reproduction and enlargement of Card Photographs, enabling the artist to introduce accessories and backgrounds, change dresses, or alter figures; and, in fact, to make a harmonious portrait, which will be a 'Picture' on which the eye rests with pleasure, as well as a faithful likeness.

All styles and sizes, plain and colored, of this popular novelty, in prices ranging from five to twenty-five patacons each.

This is a recent American invention, and has created a 'furore' in the States which bids fair to revolutionise Photographic Portraiture. Its peculiarity is, that it makes a Portrait stand out in bold relief from a black background, like a statue done in marble.

THE STATE OF THE CAMP.

There is an old Spanish proverb which says, "Whereon the foot of the sheep touches, the land is turned into gold," and until lately everyone in Buenos Ayres believed the proverb; but the fall in the price of sheep and the steady decline in the wool markets have long since inculcated very different opinions, and most people believe to-day that whereon the foot of the sheep touches, the country is turned into poverty and misery. King Cotton has no doubt again raised his head, and resumed the place so long usurped by wool. but it the consumption of wool has diminished, so also has the supply, and by the papers received per City of Brussels, we find that the wool clip of Victoria in Australia shews a deficit of 20 per cent. on the previous year. Notwithstanding all the encouragement which the United States prohibitory tariff on foreign wools affords to the American sheepfarmer, sheep have not increased in the States as in other less favoured countries. The farmers who gather flocks in Ohio and Pennsylvania look more to price than anything else; they buy the old or young, ill bred or defective, provided they are cheap—and in poor condition through dust, under a burning sun, they drive them out West, worried by dogs on every road, and faint from nursing lambs—when they reach their new prairie home, the frost has been there before them, and the native grasses are worthless. There is no fresh meadow feed, and winter finds the flocks poor, unacclimatized, and to be further tested as to strength and tenacity of life, by late cured and frost bitten hay. As a substitute for the warm sheds enjoyed the previous winter, the sheep must accommodate themselves to a fence or a shelter pretty much like our 'corrales' in this country; the average size of the flocks thus considered to be "doing well enough" is from 500 to 1,000. Death, however, in the winter invariably thins the flocks, and the American farmer with all his protection and advantages pronounces at last that the "far West is not a healthy country for sheep," and that pork and beef raising pay better.

We note these facts merely to show those engaged in the sheepfarming business that the United States farmer cannot compete with the farmer of the River Plate, and that no protection can rival the natural advantages which this country as a pastoral district enjoys. The sheep business in the River Plate has declined more owing to the negligence of those engaged in sheepfarming and the utter want of system on the estancias than anything else. Our sheepfarmers now, however, are awakening to their real interest, and although there is yet room for immense improvement, we must say that some Australian and New Zealand sheepfarmers who have come amongst us, have set us all an example which if generally adopted will reduce the cost of production so immensely that even at last year's low rates the business of wool growing will prove highly remunerative. We refer now to the plan recently introduced on the estancia of Chacabuco by Messrs. Musgrave and Inverarty, of fencing in sheep estancias in runs of half a league, and keeping on the ground so fenced one flock of say 15,000 sheep; this flock is allowed to remain in the camp night and day, and never shut in a corral except for working purposes. One shepherd cares these 15,000 sheep with less trouble than a small flock of 1200 under the old system; in fact, the time and attention of the shepherd is more required to look after the wire fence and ditch than the flock, which scarcely gives any trouble. During the great storm of the 9th March, which caused such widespread losses throughout the camp, on the Chacabuco estancia the mortality did not exceed one per cent.! One of the large flocks of 15,000 was blown up close to the fence, and remained there until the severity of the storm had passed.

The losses in the flocks during the storm of the 0th have been so severe through the South that it is probable most of the estancieros will find it their interest, instead of paying high monthly wages to puesteros for caring small points of sheep, to mix their flocks and keep them all in one; but it should be borne in mind that these large flocks necessitate the fencing of the camp, as to keep a flock of 15,000 sheep in the open camp would be an absurdity.

The severe storm on Thursday, which caused such great damage in this city, was not even known of in the camp until the newspapers were received. It rained heavily in the South on Thursday, but only for a short time, and did no damage whatever. Of course all the corrales in the country are wet and full of mud, and the flocks, even the best of them, look dirty and neglected. But since the 9th there has been no mortality, all the flocks are lambing fast and the lambs look strong and healthy.

The recent rains have damaged the maize and broom corn, and at the chacras beyond Barracas and adjoining Mr. Lanuz' property large fields are under water; the second crop of potatoes is so backward that there is little hope of getting it in before the frost. New chacras are springing up fast, not only along the lines of railway, but also at the different little towns, and even out on the estancias, puesteros who have lost the greater portion of their flocks in the storm of the 9th are now taking to agriculture. Wheat growing is no doubt a greater tax on the muscle and a drain on the soil than sheepfarming; but it has proved this year so remunerative that parties who held back last year are now anxious to embark in it. Contrary to every expectation the price of wheat in this market has held up well. Some of the large wheat farms have sold all their wheat on contract at $155 per fanega, and our readers can glean the importance of this branch of agriculture in this province, from the fact that on one wheat farm in the South the crop this year amounts to 4,500 fanegas.

The notice of the sale of eight hundred squares of chacra lands adjoining the railway station at Jeppener on the 13th is attracting great attention in the camp; all the estancieros are most anxious to see the result, as it may be regarded as the first attempt ever made on so large a scale to turn estancia land into chacra farms. The Scotch Church, which rears its head alongside the station is an inducement for Scotch farmers to purchase a few squares and settle down there as regular farmers; the soil is good, and upon the whole the scheme seems a good one.

It is a significant fact that, notwithstanding the great tide of Italian emigration to Buenos Ayres, scarcely an Italian is to be seen in the camp; there are a few at the little towns, but out on the estancias the Italians are nowhere. There is but one estancia in the South where the peons are Italian; the owner expresses himself highly pleased with them; they work well and at moderate rates. They are for the most part Lombardos and are remarkable for their temperance and frugality.

Pity it is that so few of the Lombardos find their way out to the camp, preferring to live penned up in a city to settling down as independent chacreros in the camp. But the day is not far distant when all the lands alongside of our railways will be settled on by Italian farmers, for there is a noticeable falling off in all other immigrants.

The best business by far in the camp to-day for the poor man of slender capital is brick making. Every luggage train that comes in from the camp now on either the Western or Southern Railways, brings in several waggons full of bricks which sell well in the city; the price of bricks is even firmer than that of wheat, formerly this brick trade was exclusively in the hands of Basques, but the business is now in the hands of all who have the enterprise to embark in it.

There never probably was a more opportune moment than the present for parties with respectable capital to embark in the sheep business; good sheep can still be had at very cheap rates; we heard of a recent purchase of six thousand sheep picked from the flocks of one of the most famed estancieros in this country at $20 each, but the party who purchased these sheep so thoroughly understands his business, that even during the last three years, his estancia yielded him a handsome profit; like the merchant who some few months ago entered the market and bought up all the wool he could afford to ship, and who now stands to make £50,000 sterling on the business, so all who now at these low rates buy sheep and economically manage their sheepfarms must, in a very short time, realize splendid profits, for even still the Spanish proverb holds good—

"Whereon the foot of sheep touches the land is turned into gold."

BRITISH HOSPITAL BAZAAR.

Is has been determined to hold the bazaar in aid of the Hospital on the 3rd, 4th and 5th May, at the Coliseum. The selection of fancy goods that will be offered for sale is of the most elegant and *recherché* kind, comprising a splendid assortment of contributions from the River Plate, Brazil, and England. The ladies who have charge of the various stalls took occasion some months ago to write home to their friends to enlist aid for so charitable a purpose, and some of the presents that have been received in reply are admirable of their kind.

The interest felt by all classes of our community in the welfare of the British Hospital needs no incentive other than the claims of suffering humanity to render our Fancy Fair a great success. The first bazaar at the Colon theatre in 1859 was worthy of London or Paris itself, both as regarded the splendor of display and the amount it realised. The second at the Club del Plata was another cheering testimony of the generosity of British residents, and the same has been true of the Dramatic performances given at various times in aid of our national institution.

It cannot be expected that the Hospital will ever be a self-supporting institution, and we must be prepared year after year to make good the deficit. But we have the consciousness that it is money well laid out. The poor and infirm have always a claim upon society, and in an especial manner are we bound to succor the distressed members of our community, or poor sailors who may be stricken down by illness and have none to care them. Neither can we forgot the great services rendered by the Hospital during the epidemics of 1867-68. It is an institution which in every way reflects honor upon the Englishmen of Buenos Ayres, and its utility is everyday increasing. The loss of Dr. Reid will indeed long be felt, but the Committee do not relax their efforts to maintain the institute in all its efficiency and the warmest support is sure to be given by our community at the approaching bazaar so as to place its funds in a satisfactorg condition.

LONDON LETTER.

London, March 2, 1870.

You will perhaps have heard that the Mordaunt case is settled, by a verdict pronouncing Lady Mordaunt to have been insane on the 30th of April, when she was cited to respond to the petitioner. The question has yet to be decided if her being insane bars the petitioner from all further remedy for divorce. If not, and Lady Mordaunt recovers, we are liable to hear the unclean evidence again. When the Prince of Wales entered the witness box, and swore that not only had nothing criminal taken place between him and Lady Mordaunt, but he had not even had any undue familiarity with that lady, the incredulous world was staggered. Of course the statement of the Prince, and a similar statement by Sir Frederick Johnstone, quashes all the evidence I repeated in my last letter. It is a lesson to us to hear both sides of the question before we make comments. But the whole case, from the commencement of the affair, as shown in the evidence to the verdict itself, exposing a most unsatisfactory state of the law, is repulsive. If Lady Mordaunt is innocent, it is shameful that there is no means of proving it, and if she is not innocent, it is equally disgraceful that Sir Chas. should be tied to such a woman, sane or insane.

It is agreeable to think, as Lord Penzance said in his summing up, that the heir apparent should not have broken any of the precepts of the decalogue. His Lordship used language more explicit, and of course limited his remarks to the particular case in question.

There is no doubt that great influence will be brought to bear against the reappearance of the case before the public, should Sir Charles Mordaunt find he has still a remedy; but the most loyal and decent newspapers seem to think the public would be more satisfied if Lady Mordaunt and some of her own family were to give their evidence in a new trial.

The judges have not yet decided as far as I know whether the case Stewart v. Gelotte, or whatever that celebrated Paraguay case was, will be liable to a new hearing in appeal. The judges of the Scotch Court of Session are consulting on the subject.

The emigration question came on last night in the House of Commons. Mr. Gladstone pooh-poohed it and the stupid motion fell through. As far as Buenos Ayres is concerned, if it is anxious for British blood, it will have the better chance now that the State here has renounced all meddling in the question.

The weather is delightfully spring like. We see the sun from six to six, and a glint of blue sky now and again. The town is beginning to fill, and the streets to look gay. They look all the gayer to some of us when we know by the packet edition of the STANDARD that things are at last more bright and promising in Buenos Ayres. By this steamer you will receive the latest London papers, but you will find very little employment for your scissors. Since the Mordaunt case the papers look dull. When that was in progress you could not buy a penny paper for love or money after a certain hour. We were obliged to pay threepence for a *Times*, and in this hard old country threepence is threepence. With you it is only $1.4 paper. I see some of your tramway directors stalking about the city and looking pleased. No doubt the tramways will be a paying concern.

THE CORDOBA EXHIBITION BUILDING.

New York, Feb, 19th

E. Olivera, Pres. of Committee,

Sir,

I have the honor to enclose copy of contract for the Palace, not including roof or glass-works, which latter will be forwarded by Mr. Fair from London. I am shipping by Honduras for Rosario the third lot of the Palace; it will be probably be two months before we get all complete.

EDWARD F. DAVISON.

Specification and Plans.

The contractors shall make the different pieces so as to be put together at Cordoba, and send out competent persons to put up the Palace, the whole to be finished in an artistic manner. The architects shall at all times have a right to make alterations, but if this involves an extra cost the sanction of the Argentine Minister, D. Manuel Garcia will be requisite The general measurements as laid down in the plans must be strictly followed: the decorations shall be copied from drawings. If the contractors make any alterations in the form or materials the architects shall have a right, at any time before or after the conclusion of the work to insist on such piece being made over again.

The general plan of the building shall be a paralellogram, with 3 small wings a square pavilion and 2 kiosks, one at each side of the grand entrance. The palace shall be entirely of white pine, with the dimensions expressed in the plans. The grand hall shall be built on a platform with a foundation of sleepers and supports of brick or wood. Every piece must be distinctly marked and numbered. The side walls shall be of 1¼ inch boards with a width of 4 to 4½ in.; the roof shall be boarded so as to receive a covering of galvanized iron plates. The floor shall be of narrow boards 1¼ inch thick: the doors of 2 inches thick, and carved outside. The windows in the roof shall be fixed, and those in the sides to open. All the pieces shall receive one coat of painting before shipment.

The Pavilion shall also have a floor 1¼ inch board, doors and windows same as the chief building. The Kiosks, in like manner of white pine, and the materials in every case equal to the rest of the palace.

Alterations.—Before signing the contract the following alterations were made:—1st. The goods to be delivered at the——— wharf; 2nd the pieces not to be painted; 3rd the woodwork for roof omitted.

CONTRACT FOR BUILDING.

Dn. Manuel Garcia, on behalf of the Cordova Exhibition committee, and Messrs. Marshall and Ricker of New York, have made the following contract for building the Cordova Exhibition palace. The said firm contract to deliver all the materials on or before April 15th 1870, following the plans that may be given by Messrs. Gambrill and Richardson, architects. Sr. Garcia obliges himself to pay Messrs. Marshall and Ricker for the entire work the sum of $38,200 in the manner hereafter stipulated; the latter in turn giving guarantee beforehand for the payment of wages to the workmen engaged. And both parties bind themselves to the faithful fulfilment of this contract in every particular, under a penalty of $40,000.

In testimony of the above we have hereunto set our seals.

Manuel R. Garcia.
Marshall and Ricker.

Conditions.

The whole work shall be executed to the satisfaction of Sr. Garcia and the architects, Messrs. Gambrill and Richardson, who shall at all times be at liberty to modify the plans or measurements, without this affecting the contract, except that all such alterations shall cause the estimates to be increased or diminished, the variation of the same to be arranged between the Minister and Messrs. Marshall and Ricker. If the alterations involve extra work the contractors must employ more hands, as no delay will be allowed. The work may be delivered in parts, but must be all delivered by April 15th. For every day after such date the contractors shall pay a penalty of $65 per day to the Minister. Messrs. Marshall and Ricker shall take every care to prevent any delay in Cordova, and shall fit every piece for trial before delivery at the wharf in New York.

In case of any difficulty it shall be settled by two architects, whose decision is final, one being appointed by each side, and if they disagree a third shall be named by them, in which case the majority shall decide. If the contractors refuse or neglect to finish the works according to the architects' direction the Minister may engage other parties to do so, giving first a six days' notice to the contractors. The amount for wages, materials &c shall be deducted from the sum due to Messrs. Marshall and Ricker.

The Minister on receiving the architects certificates shall pay the contractors 85 per cent. of the value of the materials shipped, the latter giving the Minister bills of lading duly signed by the captain of vessel. The remaining 15 per cent. shall not be payable till after the Exhibition Committee have received the building. The Minister shall nevertheless pay the 15 per cent. to Messrs. Marshall and Ricker in case the goods, after shipment, be destroyed by fire or shipwreck.

Manuel R. Garcia.
Marshall and Ricker.

REPORT OF THE IMMIGRATION COMMISSIONERS.

B. Aires, March 28, 1870.

To the Minister of Foreign Affairs, Dr. Don Mariano Varela.

The undersigned, Vice-President of the Central Immigration Commission, has the honor to address Y. E. and encloses some data respecting the progress of immigration to the country and the arrangements made for the better convenience of new arrivals.

During the month of February last 2,849 immigrants reached this port, of the following nationalities:—2,235 Italians, 187 Frenchmen, 132 Spaniards, 49 English and North Americans, 41 Swiss, 19 Germans, and 186 of various countries. The February arrivals did not reach half those of January, but I should inform Y.E. that many vessels are known to have left Europe with emigrants that have not yet arrived. During the present month 2,423 immigrants reached this port.

The Central Asylum received during February 890 immigrants, and from the 1st of this month to the present date 637; 762 persons were brought on shore gratis.

The construction of new railways, the extension of others, tramways, water and gas works, new buildings in every quarter of the city, saladeros and graserias, and the barracas require constantly a large number of day laborers. Wages vary according to the work, from 30 to 40 dollars mic, or from six to eight francs daily, without board, except in the saladeros, in which able-bodied men are paid from ten to twenty francs per diem.

Artizans of every kind meet with employment easily in the country towns, the colonies and the Provinces of the Interior; wages vary from eight to twelve francs daily without board or lodging. Bricklayers, carpenters, locksmiths, farriers, shoemakers, tailors, ironsmiths are much wanted in the colonies and the Provinces, and can obtain the above rates of wages, and the cost of living being much less than in the capital, new comers should turn their steps to those parts. Consular agents should recommend emigrants to bring their tools with them if they are not of too great bulk, a man working with his own tools can earn much more than others.

There is always a great demand for domestic servants; the complaints as to the scarcity and incompetency of servants here, in Rosario and the colonies are notorious; the rates of wages are, coachmen 100 to 120 francs per month, gardeners idem, cooks, male and female idem, butlers 80 to 100, maids 60 to 80, boys of from 12 to 14 years 40 to 50, all with board and lodging.

Bookeepers, clerks in mercantile houses, needlewomen, milliners, professors of music and languages, drawing, geometry—in fact all liberal professions are badly paid, and find employment with difficulty; and unless they are of first class qualifications, have generally to turn to other means of subsistence.

The brilliant results obtained in the agricultural colonies show practically that the climate and soil of the Republic are admirably suited to such industry.

Agricultural laborers with families are everywhere sought after. The competition between the directors of rival colonies ensures advantageous conditions to laborers. Several colonising companies offer to such families a 'lot' of farm land of 20 squares, about 83 acres, gratis, advance the cost of travelling from the capital to their destination, supply seeds, implements, and animals, and support the family for a year, on the sole condition of being repaid in 1, 2, or 3 years, with a very moderate interest.

Private holders of land are selling lots at 20 hard dollars the square, and sell to the settlers cows, horses, seeds, implements, &c. at market prices, support them for a year, and give them building materials, and pay their journey to destination, on condition of repayment in four years, without interest.

In Santa Fé, in the vicinity of the colonies already established, landed proprietors are selling farm lots, according to their situation, at from 200 to 350 hard dollars the lot, payable within 5 years, but they do not advance anything. Nevertheless, numberless new settlements have sprung up on this system within the last 3 years.

The Government of the province of Corrientes is most anxious to found new settlements. It offers to new comers, in fine positions on navigable rivers, farm lots of 46 acres for 25 silver dollars, payable in 2 years, and a building lot 25 yards by 25, as well as implements, and liberty to cut wood. The chief points where these can now be obtained are Lavalle, on the Parana, Ituzaingo, 40 leagues from Corrientes, on the Upper Parana, and Alvear and San Martin, on the Upper Uruguay; at this last named place there are a number of French settlers.

In the province of Buenos Ayres farm lots can be had of from 11 to 20 squares, at a cheap rate, and in some cases gratis.

Farm laborers with families always obtain a preference in the colonies but single men are in request in all quarters. In this province a laborer earns 100 francs a month, with board and lodging; in the colonies from 56 to 80 francs, and at harvest time 160 francs, with board and lodging.

In one or two years the settlers become independent.

To give Y.E an idea of the prosperity of these colonies, I may mention that at the Esperanza settlement 302 families raised this year 110,000 bushels wheat; at San Geronimo 150 families raised 55,000 bushels; at San Carlos 205 families raised 102,500 bushels; at Helvetia 82 families raised 35,750 bushels.

In this market the fanega of three and a third bushels is worth from 120 to 170 dollars, or from twenty-four to thirty-four francs.

In some colonies tobacco has been grown with good results, some having been sold at forty francs per twenty-five pounds.

The Central Committee offers the following privileges to foreign immigrants:

To land them free on their arrival

Free board and lodging for eight days.

Free passage on the Western, Southern, and Central Argentine railways to their destination.

The Government of Santa Fe pays the fare for all immigrants going to that province from the capital.

The Commission gives disinterested advice to all immigrants as regards where to settle. In order to prevent their being deceived by colonizing companies, the Commission insists on these societies publishing their statutes and rules, and only those which are approved of are recommended to new comers, and also undertakes to protect the colonist against all attempt at extortion on the part of said companies. Such are the privileges and advantages offered by the Central Commission to foreign immigrants.

God preserve Y.E.

EDITOR'S TABLE.

The Royal Mail steamer La Plata, from Southampton on the 9th ult., arrived in Montevideo yesterday morning; her mails will be here to-day. The news by this packet represents agitation as still prevailing in many European countries. There have been further disturbances in Paris, a Carlist outbreak was daily expected in Spain, and a revolutionary plot had been discovered and its objects frustrated in Portugal. In Ireland the Fenians are keeping the country distracted, and agrarian and other outrages are increasing to a most alarming extent. A duel took place between the Duc de Montpensier and the Duc de Sevilla, better known as Henri de Bourbon, in which the latter was killed. The commercial intelligence continues favorable, and all Argentine securities maintain advanced prices.

The startling progress the mania for bloodshed is making amongst the lower classes of our population has at last aroused the attention of our native colleagues, the most influential of whom have taken the matter up, and

urge the necessity of speedy and vigorous measures to repress it. The *Nacional* says the city has assumed the aspect of California in former times, that we must all go armed 'cap á pie' if our lives are to be safe, and that it cannot be a subject of wonder if Lynch Law be soon established amongst us. Our readers may remember that such have been our opinions for a long time past.

Mr. Charles Jackson presented us yesterday with a beautiful photograph of one of the cars intended to run on the 25 de Mayo tramway line to the 11 de Setiembre (Lacroze's.) The vehicle is the 'beau ideal' of a tramway carriage, and very different from the wretched trucks now running on the Cuyo line. If the traffic arrangements of the Lacroze line prove as perfect as the photograph represents their carriages to be, it is certain to monopolize the traffic to the Plaza Once de Setiembre.

Troops of peons have been at work for the last few days at the Aduana Chica, clearing out the goods; of the 15,000 packages in this store, 2,000 have already been removed.

Mr. Albert Phillips' farewell benefit will not come off till the end of this month: the Palermo Minstrels, who created such a sensation on their first appearance at the French Theatre, have promised to assist Mr. Phillips on the occasion.

The Provincial Government has appointed a commission to distribute immediate relief to the most necessitous of the sufferers by the late inundation. A decree places the sum of $50,000 m|c. at the disposal of the commission for the purpose referred to.

Our friend Col. Orquera has been entrusted by Government with a commission that necessitates his presence first in Cordova and then in Mendoza, and we understand is to leave this morning by the steamer for Rosario.

We are happy to announce that the sad news we gave a few days ago of the death of Miss Grillo, and which we published on the faith of a letter received from Mr. Castelli, seems to be unfounded. Mr. Pestalardo has received a letter from the Marquis del Grillo dated Florence the 20th of February, in which he states that all his family were enjoying perfect health brity, and were preparing to remove to Paris at the beginning of March. We give this news with the most unfeigned satisfaction,

Our friend Orion is starring it in Gualeguaychu, and is receiving an amount of ovations and public demonstration of which he may well be proud: young and old, fair and ugly of both sexes have come forward to welcome him, and to judge from the accounts we receive from various quarters, the wonder is, that Orion can have survived after such a tremendous amount of speechifying, banqueting, dancing, etc.

H. M. S. Cracker, Captain Fawkes arrived in port yesterday from Rosario. She proceeds to Montevideo this afternoon.

We have received a pamphlet descriptive of the system of wooden pavement known as Nicholson's pavement. This system is gradually being recognized as the best yet employed. It has been in operation in several important towns in the States, in some for as long as ten years, giving most satisfactory results. It finds at present so much favor in New York that the contractors cannot lay it down fast enough, although at first it met with the stupid opposition that always precedes useful inventions—vide the introduction of tramways in Buenos Ayres. It is this system which Mr. Camacho proposes introducing in Buenos Ayres It stands to reason that he should meet with opposition and have difficulties to surmount, but we hope he will persevere until he is successful, and he will have the satisfaction of knowing that he will be ranked among the chief benefactors of Buenos Ayres.

A joint stock company has been formed for the purpose of carrying out the concession granted last year by the National Government to Messrs. Matti and Roldan for the irrigation of the River Bermejo. A copy of the statutes has been sent to us, from which we see that the capital is 100,000 patacons in one thousand shares of 100 patacons each. Messrs. Matti and Roldan are to receive 250 paid up shares for the transfer to the Company of the concession. The first general meeting takes place to-morrow at 3 p.m. in the Bolsa for the purpose of electing the committee and beginning operations.

We call the attention of merchants to the advertisement of Mr. James Carmen in another column. His barraca at 359 Peru is in every way suited for the storage and drying and airing of goods damaged by the flood; he will himself attend these operations.

Some gentlemen anxious to join the Suarez Colony in Parana called yesterday to obtain information, as it appears Mr. Calzadilla the agent is at present in Montevideo.

Chiarini will be soon in the Plate. He has supplied the place of those of his artists carried off by yellow fever, by others from Europe, and is giving additional performances in Rio previous to coming down here.

A sereno and a peon were found murdered in some of the workshops of the Western Railway on Monday morning: they had evidently been killed by dagger thrusts; no account of the perpetrators as yet.

There is nothing further of a reliable nature respecting the Oriental revolution.

The Municipality of Rosario has just come down on some of the bakers of that town with a heavy hand. It appears that these honest tradesmen have for some time been giving short weight, and a bad quality of bread to the public, and the authorities have very properly imposed heavy fines on the delinquents. There is a tremendous hubbub about the affair, some parties insisting that the bakers are innocent victims.

Mr. Holtzweissig, the well known photographer in Bond Street, really deserves well of the public. Having sold all the 'cartes de visite' of the late Rev. J. C. Ford, he is now striking off a fresh supply to meet the continuous demand, and in addition he has executed a larger picture of this lamented clergyman, very suitable for hanging in a drawing room. He informs us that to-day, or at latest to-morrow, he will have portraits of the late Dr. Reid on sale, and this morning those who took an interest in the Mordaunt case can obtain 'cartes' of the chief character in that lamentable domestic drama at his studio, nearly opposite our office.

A frightful tragedy took place on Tuesday afternoon, in broad daylight, in Calle Venezuela. A man named Echevarria, who had been separated from his wife for some time, met her at the time and place mentioned, and nearly severed her head from her body with one stroke of a large clasp knife. The unfortunate victim was accompanied at the time by her little daughter aged 9 years, who courageously threw herself on the assassin, and contributed to his capture.

Those in want of household furniture should attend the auction to come off to-day at No. 269 Calle Piedad at 12 o'clock. An advertisement in another column gives a list of the effects to be sold; amongst them is a large Pleyel piano,

The six o'clock train on the Western Railway on Monday night came in collision with a horse on the line at the cross-road above Almagro. The animal was literally cut to pieces, but fortunately the cars did not leave the line. They may not be always so fortunate, as the point is a very dangerous one. The cross road runs between the Flores and the Guana roads, and has a daily increasing traffic. All danger would be averted were a guard placed at the crossing, and we trust the repeated accidents at the point will cause the administration to appoint one at once.

Marie Phillippe Louis d'Orleans, Duc de Montpensier, who has just killed Henri de Bourbon, Duc de Seville, in a duel, is fifth son of King Louis Phillipe of France, and was born in 1824; he at one time bore the title of 'infant' of Spain, and was Captain General of the armies of that kingdom; he married in 1846 the Princess Marie Louise Ferdinande, 'infanta' of Spain and sister to the ex-Queen Isabell II. His adversary, Henri Marie Ferdinand, Duc de Seville, 'infant' of Spain, was the third son of the Duc de Cadiz, Francois de Paul Antoine Marie, 'infant' of Spain; the deceased was grandson to Francis I. of the Two Sicilies; he held the post of Vice-Admiral in the Spanish navy; he was born in 1823 and leaves four children.

We received yesterday through the kindness of the author a copy of the Report on Education in the province of Buenos Aires by Dr. Don José M. Estrada; we had not time to peruse it thoroughly and are consequently obliged to defer any remarks on it for a few days.

ON 'CHANGE.

April 6, 1870.

Ounces,	400
Sovereigns	122½
Patacons	25
Nat. Bonds	66½

The Bond market opened firm this morning at 66½, but fell off, owing to an English broker, who bought largely on Monday, selling out to-day. The market shows no sign of weakness, yet there is no animation, and it is unlikely that any great change in the market will occur previous to the amortization.

The sales to-day were as follows:—

For cash,	15,800	at 65½
April 30th,	25,000	at 66½-66⅝
Total sales,	40,800	

There was much enquiry to-day as to the name of the English banker who is in communication with the Minister respecting the National Loan. Nothing certain is yet known respecting this business, but advices are looked for by the packet in the morning of a more decisive character. The loan, if done in the quarter referred to, will be held in Frankfort-on-Maine, and the coupons collected here. The terms offered are advantageous and fully meet the views of the Minister A ten million sterling loan by Baron Rothschild for Brazil is spoken of as negotiated in England, and the great fall in gold and rise in exchange in Rio, as announced per telegram, is regarded as the result of favorable news respecting this loan. Gold has fallen in Rio to 11.350 and exchange risen to 21d for the banks, and commercial bills 22d; not for many years have these quotations been known in Rio.

Exchange has fallen here, and bills were passed to-day and yesterday at 49½ and 49⅝. It was said on 'Change to-day that the R. Plate Bank is drawing at 49d. The exchange business for this packet it is thought will be large.

It was announced on 'Change to-day that a new Marino and Fire Insurance Company is about to be started in this city, and the following gentlemen have been named to organize the company, Dr. B. Irigoyen. A. Lanuz, R. Heimendahl, F. Basabe, L. J. Isaac. The shares will be one thousand patacons, and the name of the new company "La Probidad." The new company is in good hands, and promises to be a great success.

Sixty Gas shares at 70 prem.

The advices from Europe by the English mail respecting produce are of a most favorable character. Wool, hides, and tallow are maintained. Some papers per City of Brussels have a notice of a new invention in ship-building, &c., almost identical with Mr. Mendez' scheme. The packet left Montevideo early to-day, and may be expected up about midnight. She brings no mails from Montevideo, which has much annoyed the merchants down there.

The following vessels are at present loading at the Lieb'g. Extract of Meat Company, Fray Bentos: Catrina Henrique, Emica, Reis, and Pablo Tolvat.

In the wool market to-day there was great animation; holders appear to be now complete masters of the market; whatever price they ask is paid. In the South Market there was an average amount of business done: wools that were some three weeks ago sold at 4 ', were this morning sold at 55. This can give an exact idea of the market.

There is much said about the new bonded warehouses known as the Lezica & Lanuz stores; already some 2,000 packages have been taken from the Aduana Chica, and now it is said that the damage is greater than at first supposed; instead of 6,000 bales 8,000 are damaged; there yet exist at the Aduana Chica 16,000 bales.

The failure of the owner of a Registro was spoken of on 'Change to-day, liabilities not stated. 50 per cent offered by the bankrupt.

The new convention for the reform of the Courts will have power to reform the Municipality, and already the most sweeping reforms in that corporation are being proposed at the instance of Governor Castro.

Mr. Donovan reports the followiah sales—

1600 arr. wool at	$52
200 fanegas wheat	165
160 " "	170
100 doz. sheepskins	78

The returns of the Rosario Custom-house for the past month give the following receipts. Import duties, $f 75,640, Export-do., $f.7,807.

The following details respecting the Transandine Telegraph Company will be found interesting. Capital $f.500,000 in 1,000 shares of $f.500 each. Of these 700 have been taken in Chile. 100 have been allotted to Messrs. Clark and Co. as promoters and concessionaires, and 200 have been reserved for the Argentine Republic. The calls will be 20 p. ⅀ cash, 10 p. ⅀ on 1st May, and 10 p. ⅀ every two months, until the works are completed. The cost of working and repairing the line is calculated at $f.42,600 annually, which will be covered by the subsidies given by the Argentine and Chilian Governments, the former giving $f30,000, and the latter $f13,000, making a total of $f43,000 per annum, leaving as nett profits for the shareholders 15 or 20 p. ⅀ of the capital employed, at which figure is calculated the annual income, without taking into account the proceeds of the communication with Europe as soon as the line is connected with the one projected, which is almost certain of being carried out. Further details can be obtained at Mr. Andres F. Lamas', Calle Piedad 215, where also application can be addressed for the few unalloted shares remaining.

The latest advices from the United States are as follows:—

Washington advices seem to indicate that Congress is disposed, at length, to vouchsafe some needed legislation in behalf of commerce; the Ways and Means Committee having reported in favor of reducing the revenue from the tariff about $20,000,000, and that from the excise about $30,000,000. It is believed that this reduction of taxation, if sanctioned will enhance the public credit and by consequence depress the premium on Gold, while, on the other hand, it will tend to increase our foreign trade balance by stimulating imports. In the absence of the whole programme, however, speculation as to results is of little value. The money market remains easy at 5 @ 6 per cent. on call, with exceptions at 4 and 7. Discounts continue 6 @ 8 per cent. The Gold premium is lower, and Foreign Exchange unsettled.

Respecting the saladero business we take the following from the latest circular, which shows the working for the last fortnight in March—

Sales of saladero ox hides,	30,000 at 37½ to 38rls for 60lb., and 2,000 cowhides at 36½ rls. for 48lb.
Last price for ox hides,	38 rls.
Sales since October 1st, last to date	274,500
Slaughter " "	258,500
Do. for the last 15 days March	24,000
No stock—hides to make	16,000

Tallow—1,100 pipes at 15½ and at 16½, and 15½ half pipes.

Jerked beef—19,300 quintals at 18 to 19 rls.

Mutton tallow—750 pipes sales, 15 to 15⅓ rls. in pipes, and 14⅔ in half pipes.

Sales of dry ox and cow hides, 54,000 hides. Stock unsold, 21,000.

American hides, sales 21,000. Entre Rios 47½ to 44rls 'al barrer.'

Correntino and Concordia at 41½ and 43, and classified hides, this province, at 45¾ and 46 for 21½ to 22lb. Stock, 4,000 hides.

Mr. Ghiraldez, the well known broker, has a very splendid piece of land some four square leagues for sale, in the district of Nuevo de Julio. We understand that the price asked is fifty thousand dollars m|c. per square league; the estancia house is comfortable, with 'monte,' and all conveniences for watering stock, &c.

The City of Brussels mails bring the following advices respecting hides:—

"Though there has been rather more business doing in salted River Plate ox hides during the past month; there has been very little animation, still, stock being now reduced to a very narrow compass, the market closes firmer, and some parcels from the Rivers are held for an advance. The holders of Rio Grande salted ox having shown more disposition to meet the Trade, several sales are made at 51d per lb., but a higher price is now asked for the few remaining onhand.

SICK PEOPLE NATURALLY THINK that after being dosed uselessly with a variety of medicines, some substantial reasons should be given before they make a new experiment. In recommending Bristo's Sugar-coated Pills to persons afflicted with biliousness and irregularities of the digestive functions, it is proper to say that they are not a mere purge. They include in their composition three specifics—a simple tonic a mild aperient, and a powerful antibilious agent—all vegetable. These three elements are not combined in any other pill, and two of them are substances comparatively new to medicine. The combination is believed to constitute a positive antidote to biliousness and indigestion. Where these complaints are complicated with scrofulous symptoms, Bristol's Sarsaparilla should be administered as an alterative and detergent.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marino Railway at Colonia being completed, public attention is called to the following Tariff of Charges:

Capacity of 500 Tons, dead weight.

Sailing Vessels and Steamers of over one hundred [100] tons, English or American measurement, will pay a rate of one dollar ($1.00) per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engines does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar and a-half (1.50) in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, seventy-five ($0.75) cents. per ton. in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Wrecked Vessels or Steamers, whose bottoms are broken, will not be taken at the regular rates, but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or Steamer.

VALUABLE SAW MILL PROPERTY FOR SALE,
IN BRAZIL.

A very favorable opportunity for a profitable investment in producing the most beautiful kinds of the variegated woods of Brazil, is now offered to dealers in Mahogany, Rosewood, Lignumvitæ, Brazilian Cedar, Cannela, Perroba, and the celebrated Arriba, the richest veined cabinet woods of South America.
The transportation of logs down the River Itajhoy, by one branch of fifty miles, and another of forty miles, affords great facilities for an abundant supply for the Saw Mill.
The Mill is located only 1½ miles from the sea, in the Province of Santa Catharina, 46 miles distant from Desterro, the capital, and 350 miles south of Rio de Janeiro by sea. Vessels drawing 18 feet of water can take cargoes from the Saw Mill Wharf.
The Saw Mill is 108 feet by 72 feet, with about six acres of land, containing orange and banana trees, and a tenement House 108 feet by 32 feet.
Piles are driven to form a large Boom for Logs, and a Logway and Apparatus made for drawing up the logs to the Mill, together with a Double-truck Railway for delivering the sawed lumber on shipboard.
An Office and Storehouse are on the Premises
There are two new large Cylindrical Flue Boilers, with a return flue through each, made of the best flange iron, and a powerful Steam Engine, capable of sawing 12,000 feet of boards in a day; a 60-inch circular saw, spare saw, and extra movable teeth, slabbing and edging saw, best double leather belts, a good blacksmith's and carpenter's shop, turning engines, and a supply of vices and tools for repairs.
The whole Establishment is the most complete in South America.
A new and first-rate large planing and grooving machine is in operation in the Mill.
A Plan of the Building, and samples of the beautiful available woods, may be seen, on application to Crawford Allen, Providence; or Allen D. Baily, 181 Pearl-street, New York. Post Office address—Box No. 690.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Maua & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

This vessel was built in Holland in 1858, and is known in Veritas A.1.2.; is of 146 register tons, and can carry 200 tons dead weight.

The Inventory is the most complete that can be required, and the vessel well suited for coasting and river navigation. She is ready to sail, and will be a great bargain.

The Chronometer by Hadden, and the other Nautical Instruments, will be sold in separate lots.

For further information apply to the Consulate of the Netherlands, No. 77 Tucuman.

The Postmaster-General of Her Majesty's Government has concluded a contract with the Liverpool, Brazil, and River Plate Steam Navigation Company, Limited (Messrs. Lamport and Holt's Line), for a second regular Mail in each month by British Packet to Brazil and England.

The new Mail Steamers will leave Buenos Ayres on the 9th of each month, and are intended to proceed to Montevideo, Rio de Janeiro, and Bahia, and thence to Southampton and Liverpool.

The Service is so timed as to afford opportunity for letters received in England by the New Line, to be answered by the outward-bound Mail Steamer of the same Line, which leaves Liverpool on the 20th of each month (unless that be Monday, and then on the 21st.)

Neither consignees' despatches, nor letters o any kind can be received by us for conveyance by the Mail Steamer of the 9th.

Due Notice, respecting the posting of Letters, will be issued by the Post-office authorities.
